Why study over the holidays and on Saturdays?

- 1. Classes run during the day, which means you can still have time with family and friends in the evenings.**
- 2. It's a great opportunity to be productive over the break AND get credit for it.**
- 3. You will return to your regular school routine quicker because you've stayed academically focused during the holidays.**
- 4. You can get ahead of your classmates, and a leg up on graduation.**
- 5. You only need **18 days** of classes to get a credit (that would normally take 5 months in day school).**

Semi-private and private courses available upon request.
